

About: get

Requires [authorization](#) (#auth).

Gets information about the user, the user's Drive, and system capabilities. [Try it now](#) (#try-it).

Request

HTTP request

GET <https://www.googleapis.com/drive/v3/about>

Parameters

Parameter name	Value	Description
----------------	-------	-------------

Required query parameters

fields	string	The paths of the fields you want included in the response. For development you can use the special value * to return all fields, but you'll achieve greater performance by only selecting the fields you need. For more information, see Return specific fields for a file (/drive/api/v3/fields-parameter).
---------------	---------------	--

Authorization

This request requires authorization with at least one of the following scopes:

Scope

<https://www.googleapis.com/auth/drive>

<https://www.googleapis.com/auth/drive.file>

<https://www.googleapis.com/auth/drive.readonly>

<https://www.googleapis.com/auth/drive.metadata.readonly>

Scope

<https://www.googleapis.com/auth/drive.appdata>

<https://www.googleapis.com/auth/drive.metadata>

<https://www.googleapis.com/auth/drive.photos.readonly>

Some scopes are restricted and require a security assessment for your app to use them. For more information, see the [authentication and authorization](/drive/api/v3/about-auth) (/drive/api/v3/about-auth) page.

Request body

Do not supply a request body with this method.

Response

If successful, this method returns an [About resource](/drive/api/v3/reference/about#resource) (/drive/api/v3/reference/about#resource) in the response body.

Try it!

Use the APIs Explorer below to call this method on live data and see the response.
